## U-Pro Hybrid BLE TPMS Sensor

PN: HTS-B10BN-US

### U-Pro Hybrid BLE

- **Cost-Effective Aftermarket BLE TPMS Sensors** – Purpose-built for Tesla models, delivering OEM-grade performance with an aftermarket price tag.
- **Install & Drive** – Pre-configured sensors eliminate programming steps, reducing installation time and increasing service throughout.
- **Direct OE Sensor Replacement** – Installs seamlessly and functions like factory sensors, minimizing downtime and ensuring compatibility.
- **Reliable BLE Communication** – Provides stable, real-time tire pressure data for accurate monitoring and improved service confidence.
- **Pre-Programmed for Tesla Models** – Ready to use with Model 3, S, X, Y, and Cybertruck for fast, hassle-free installation.
