HAM-A78EDBK50	50 Pack of Hybrid NFC Sensors with Dual Valves
HAM-A78EDBK100	100 Pack of Hybrid NFC Sensors with Dual Valves

TESLA BLE SENSOR

U-Pro Hybrid BLE

- Pre-programmed for Tesla Model 3, S, X and Y*
- Cost-efficient aftermarket TPMS solution
- Direct replacement for OE sensor
- No programming required
- Available with black Clamp-In valve

PN: HTS-B10BN-US

*Coverage: Model 3 (Oct 2020+), Model S (Jun 2021+), Model X (Oct 2021+) and Model Y (Oct 2020+).

THE ONLY 1-SKU SOLUTION

U-Pro Hybrid 2.5

- **Configurable:** configure in 1-3 seconds, as protocols covering a high percentage of vehicles are stored on the sensor
- **Programmable:** add new protocols as they become available, future-proofing stock
- **Dual frequencies:** 315 and 433 MHz
- **Dual valves in 1 box:** swap between a Snap-In and a Clamp-In
- Compatible with 25+ ATEQ manufactured TPMS tools
